Hello Commissioner James,

The Big Belly trash cans are coming to Little Tokyo! We have been working with George Huang, Bureau of Engineering to get the Big Belly trash cans for Little Tokyo. We anticipate the installation the end of August or early September 2018! and would like you to join us for a photo opportunity at the installation. As soon as we hear from the Bureau of Engineering on an installation date we will get back with you. We appreciate your help keeping this project moving along.

Thank you!

Joanne Kumamoto

Subject: Re: Little Tokyo Bigbelly Tash Cans from ATP grant

Ms. Kumamoto:

The Bureau of Engineering has responded with the following information in response to your inquiry:

These trash receptacles are part of an Active Transportation Program (ATP) grant that our Street Program has been working on. It looks like the grant funds are not yet approved to be expended and we estimate awarding the contract some time near the end of this calendar year or early in 2018. The trash receptacles would be purchased a few months after the contract award.

Best,
Kevin

Hi Commissioner James,

The Little Tokyo BID would like to see if it is possible to have the Big Belly Trash cans installed in Little Tokyo before 2019! Originally we were told that they would be installed in 2017. We understand there has been a change in staff which required a grant extension. We responded to all the requests from The Bureau of Engineering for locations with permits by the property owners. We are eagerly waiting for these trash cans. We understand that George Huang is the current manager for the Little Tokyo ATP grant.

Thank you.
